

1. Existing fire escape ladder

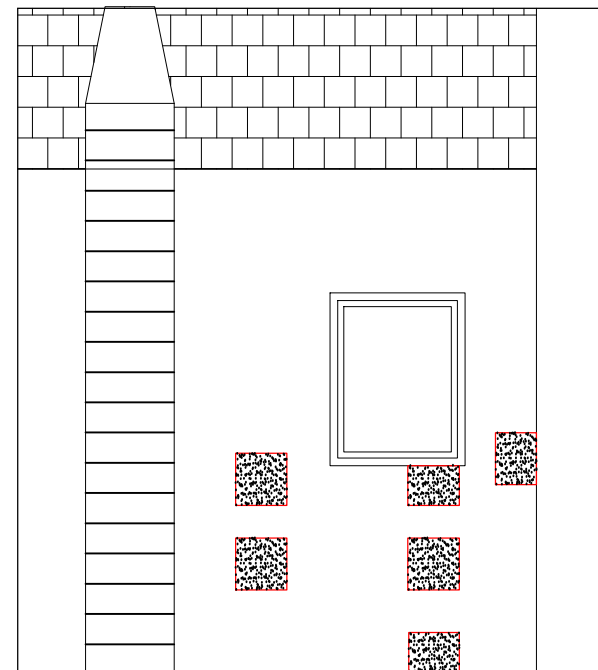

2. Ladder cut away leaving remaining anchor fixings

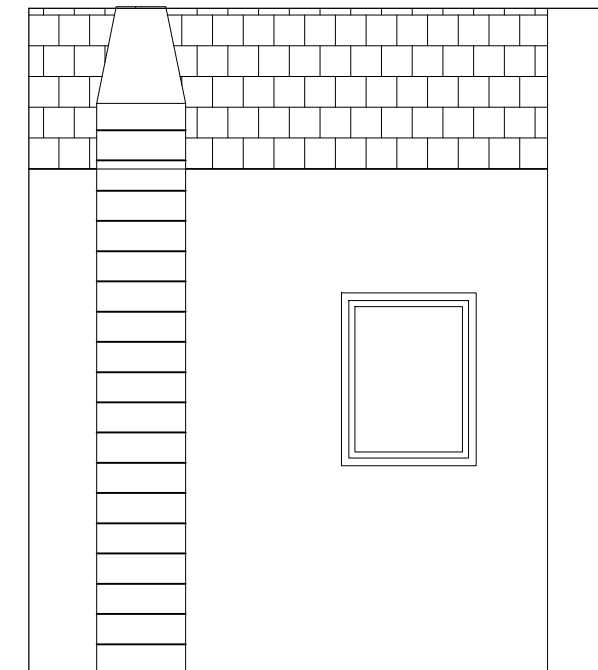

3. Render cut out approximately 300mm x 300mm around anchor.

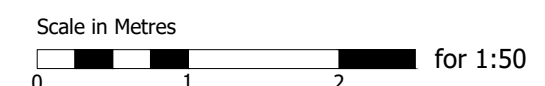

4. Anchors removed which may require brick replacements.

5. Open patch repaired by infilling with lime render to closely match the existing. Existing render to be tested to identify correct mixture.

6. Final result to leave clean finish with minimal evidence of repairs undertaken.

NOTES

1. Do not scale dimensions from this drawing for construction purposes.
2. All contractors and sub-contractors must verify sizes and conditions on site before work commences.
3. Copyright - This drawing is copyright to SHW and may not be reproduced in any form whatsoever without prior express written consent.
