Dear Sirs,

Application for tree work in a conservation area

I wish to apply to trim some trees in my front garden. I attempted to make an application via the planning portal but it refused to accept my address as there is no house number!

I am including a plan of the site, showing the position of the trees and also two photographs showing them, lettered as per the plan.

The intention is to open up the frontage and take the trees down to the height of the leylandiis cut back after an earlier application.

Please confirm that this letter is an acceptable format for an application.

Yours sincerely,

John Clarkson

- B = beech
- C = chestnut
- O = oak
- S = silver beech
- Y = sycamore
