Important information about this consent

If you wish to change the proposed operations or their location or to carry out additional operations for which consent has not yet been given, or if a time period set out above has expired, you must give further written notice to Natural England. Before doing so, you can seek advice from Natural England.

You may face enforcement action if you carry out or permit unauthorised operations which destroy, damage or disturb the notified features of special scientific interest.

Before undertaking or permitting the operations specified in this consent, you may also need to get additional permissions from other authorities. For example, the consented operations might also require planning permission from the Local Planning Authority, a permit from the Environment Agency or a licence from the Forestry Commission. It is your responsibility, as the grantee of this consent, to ensure that no other permissions or consents, whether of a public or a private nature, are needed and, if any are needed, to acquire them before you exercise this consent.

This is Natural England's consent only, and it does not allow you to undertake or permit the specified operations without first having obtained all of the necessary permissions needed to undertake the operation lawfully. If you do not obtain all of the permissions you require, and carry out the work anyway, you may face enforcement action from other authorities or parties.

As the grantee of this consent, you are responsible for carrying out the consented operation(s) safely and in all ways according to the law.
