

The following items have been identified as per an existing survey of the building. We have highlighted the following that would be repaired as part of the proposals.

Fire engineer to be consulted to inspect works meet requirements for Building Regulations.

All new fire shutters must be fire tested and compliant to latest standard BS EN 16034:2014 & CE Marked to BS EN 13241-1:2003

NOTES:  
This drawing is not a working drawing, and is only for the purpose of the following-  
A- Planning Submission  
B - Building Regulations Submission  
The main contractor is responsible for informing the lead designer of any discrepancy on, or between, this drawing and any other relevant document.  
All existing walls, foundations and lintels or other structural items are to be confirmed load bearing and adequate for increased loading where relevant prior to work commencing.  
Any existing walls to be removed are to be confirmed non-loadbearing prior to removal.  
Boundaries, angles, and dimensions are to be checked by the main contractor prior to work commencing.  
Written dimensions only to be used from this drawing. If in doubt consult the lead designer for clarification.
