Dear S [REDACTED]

Quote Specification and Costing:

There are numerous tree reductions required around the back courtyard area. Our certified arborist team shall attend site and complete the following operations;

- Tree 1 – Scots Pine to have lower limbs reduced back to the stem (approx. 3 metres) due to encroachment onto building and conservatory
- Entire area – All trees to be uplifted over pathways to 2.4 metres.
- All shrubs near back door (photographs below) to be pruned back to curblines and formatively pruned

Tree crowns will be accessed using ropes and harness. All branches will be cut and have a controlled descent using LOLER certified rigging gear. All branches to be lowered into segregated drop zone. All waste to be processed through a woodchipper and removed from site for suitable disposal
