Dear David,

Rights of Way

Public Footpath No. 9 Colton Parish runs up the private road leading to the property.

It is not clear from the plans whether any works are proposed to this, as it has been included in the red site boundary.

The applicant needs to be reminded that although the lane to the property is private, the fact that the route is a public highway (footpath) takes precedence. The use by private vehicles is subject, and subordinate to, the public's right. In other words pedestrians have a public right and vehicles need to give way to them not the other way around.

It is important that users of the path are still able to exercise their public rights safely and that the path is reinstated if any damage to the surface occurs as a result of the proposed development or use of the site if the application is approved. The surface of the footpath must be kept in a state of repair such that the public right to use it can be exercised safely and at all times. Heavy vehicular use can cause the way to become unsuitable for use and in some instances dangerous. Some attention needs to be drawn to this and that surface works may be required. The County Council is only responsible for the surface of the footpath for pedestrians, and the applicant should be made aware of this.

The County Council has not received any application under Section 53 of the Wildlife and Countryside Act 1981 to add or modify the Definitive Map of Public Rights of Way, which affects the land in question. It should be noted, however, that this does not preclude the possibility of the existence of a right of way at common law, or by virtue of a presumed dedication under Section 31 of the Highways Act 1980. It may, therefore, be necessary to make further local enquiries and seek legal advice in respect of any physically evident route affecting the land, or the apparent exercise of a right of way by members of the public.

Kind Regards,

Julie Hall
Spatial Information Officer,
Staffordshire County Council
