

Heavy Duty
Septic Tank Dimensions

Additional Details for septic tank sokaway kit 3-4 bedroom

At last, you can now buy a complete septic tank and soakaway system, that takes just 3 hours to install.

The septic tank soakway kit is 100% Building Regs Compliant.

In this septic tank soakaway kit you will get:

1 x shallow dig bullet septic tank. It's called the Bullet because it is so shallow, and only takes approximately 1 hour to install. No concrete required.

You can also attach a riser to it, which allows you to sink the Bullet deeper into the ground. The 1 metre riser comes free with the tank.

5 x 3 metres of 110mm orange underground pipe work.

1 x 360mm inspection chamber which goes inbetween the septic tank and soakaway.
