Details of the pre-application advice received

Following the helpful pre-application advice it was clear that planning permission was required for our proposed development. We have revised our development proposal following the advice, including:  
Character of the Street Scene - Our proposal responds to the scale, height and materials and respects the character of the surrounding area, with the inclusion of a number of storage sheds rather than fewer, larger sheds. The new sheds mimic the existing shed and are set back from the front of the existing outbuilding.  
By setting back the front of the new outbuildings, we have mitigated the small increase in height of the structure. When our proposed development is viewed from the access road above, this small increase will not be obvious.  
The new outbuildings are for the same use as the existing facilities but due to significant increase in usage, we require additional storage capacity.  
Impact on neighbouring amenity - Our proposal does not result in excessive visual intrusion. We are not overlooked by neighbours in the vicinity of the development, as indicated on our attached plans.  
Special circumstances - Our development proposal will allow us to continue to provide sailing opportunities to the disabled, a number of local schools and our growing membership. We have a compelling argument for our proposal to be supported, as fully described in our planning application documentation.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
