

Hallway - View to Kitchen

Original staircase down to basement level removed when property split into two units. 1930s style oak staircase not original and presumed to have been built at same time as modifications to split property.

The door through to the kitchen has been moved from its original location and brought forward into the hallway. Door, partition and ceiling box out to be removed and reinstated into original location - refer to plan drawing LBC_003 for positioning. New door & casing to match original style of house.

Hallway - View from Stair

The box out required for the new door position has created an awkward shelf above. Our proposal would see this removed and the hallway returned to its original layout.
