

Your Offer Includes...

The following products have been sourced for your installation using market-leading manufacturers, based on their performance, reliability and cost-effectiveness.

JA Solar 370W Monocrystalline PV Panel

Founded in 2005, JA Solar are well known in the industry for their continuous technological innovation. Selling PV modules to over 135 countries, they are a leading global manufacturer of high-performance PV Panels.

Specification:

- **Efficiency**
≤ 19.8%
- **Weight**
20.7 kg
- **Warranty**
12-year product warranty
25 Year Linear Warranty (85% of output)
- **Dimensions:**
1776 mm × 1052 mm × 35 mm

Solis 5G Range Inverter

Awarded the title of "Top Inverter Brand" by the Photovoltaic Authority Research Organisation, Ginlong Solis are a global powerhouse in inverter manufacturing, with technology used in many high profile locations around the world, including the Eiffel Tower.

Specification:

- **Efficiency**
98.1% maximum efficiency
- **Weight**
11kg
- **Warranty**
10 years
- **Monitoring**
Monitor your performance, with the app available on all smart devices.

Renusol Mounting System

For the past 22 years Renusol have been developing and manufacturing assembly solutions for the photovoltaic industry from their base in Cologne. These German-engineered mounting systems are recognised for their high quality and cost-effectiveness.

Additional Options

You may have been offered battery storage or a power diverter as part of your Solar Together personal recommendation. If these did not form part of your recommendation, you can still discuss these options when one of our surveyors comes out to measure your roof.

Solis Hybrid/ AC Coupled Battery Inverter

Awarded the title of "Top Inverter Brand" by the Photovoltaic Authority Research Organisation, Ginlong Solis are a global powerhouse in inverter manufacturing, with technology used in many high profile locations around the world, including the Eiffel Tower.

Specification:

- **Efficiency**
>96.8% efficiency
- **Weight**
17kg
- **Warranty**
10 years
- **Monitoring**
Monitor your performance, with the app available on all smart devices.

Pylon US2000 Plus Li-ION Battery

Pylontech are the leading manufacturers of lithium iron phosphate batteries, being established since 2009 they are supplying the perfect battery storage systems for the rapid growth of the market.

Specification:

- **Depth Of Discharge**
90%
- **Weight**
24 kg
- **Warranty**
10 years
- **Dimensions**
440 x 410 x 89 (mm)

Solar iBoost

Marlec Engineering has recently celebrated its 40th anniversary in the renewable energy industry. They launched the 'Solar iBoost' in 2013, that quickly became the worlds best selling PV immersion controller heater.

Specification:

- **Free Hot Water**
Use free surplus electric from your solar to heat your hot water.
- **Dimensions**
95 (L) x 75 (H) x 35 (W) mm
- **Warranty**
24 months
- **Monitoring**
The optional 'buddy' remote, will control your iBoost from anywhere in your home.

Package Pricing

The standard package price includes supply and installation of your Solar Panels, Inverter and Mounting System, fully installed, including 10 year warranties and online monitoring.

All prices are inclusive of 5% VAT. Commercial customers will be subject to the 20% VAT rate.
