4. Description of Proposed Works

Please describe the proposed works:

The proposed works comprise a single-storey extension to the rear of the existing dwelling. It measures 5.5m in length, with a width of 3.9m, giving a GIA of 17.0m². The extension is of a flat-roofed design, the highest point being 2.9m above the existing ground level.

The extension has been designed to minimise its visual impact on neighboring properties. Its form and materials are sensitive to its context, being flat-roofed to achieve a low profile, and using a red brick to match the existing dwelling. Further, windows have been considerably placed with respect to neighboring properties to minimise, so far as is practicable, any overlooking.

Has the work already been started without consent? Yes No

5. Materials

Does the proposed development require any materials to be used externally? Yes No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material):
