96	Yucca filamentosa	3L	45cm
98	Yucca filamentosa	3L	45cm
100	Yucca filamentosa	3L	45cm

Plant Schedule:

[illegible]

NOTES

-
- Native Planting
- Grass-Wildflower Mix
- Grass-Turf
- Planting-Strips
- Tree-Standard

Improvements:

- Sustainable (or 'ethical') food is a label used to promote the purchase of food products that are produced in a way that is environmentally, socially and economically responsible. The term 'ethical' is used to describe the moral dimensions of food production, such as the treatment of animals, the use of pesticides, and the impact on the environment. The term 'sustainable' is used to describe the long-term viability of food production, such as the use of renewable resources and the protection of the environment. The term 'ethical' is used to describe the moral dimensions of food production, such as the treatment of animals, the use of pesticides, and the impact on the environment. The term 'sustainable' is used to describe the long-term viability of food production, such as the use of renewable resources and the protection of the environment.
