The site is outside of the Town Development Boundary for Witham in an area that would normally be safeguarded from new residential development.

It is close to the North East Witham (Forest Road) Growth Location and to a smaller development to the north-west of the builders' yard.

It should be noted that the Council publishes a 5 year housing land trajectory as of 31st March each year, the most recent position therefore is that of 31st March 2020. The end of the monitoring year has now passed and the Council is undertaking a full review of the housing land supply position as at the 31st March 2021, which it will publish as soon as it is completed. As the Council cannot currently demonstrate the required five Year Housing Land Supply the 'tilted balance' of Paragraph 11(d) of the National Planning Policy Framework would be engaged. It also means that the most important Development Plan policies for determining this application, those relevant to the provision of housing, are out of date. The Council considers that the current 5 year Housing Land Supply for the District is 3.73 years.

Should an application be submitted, the Council will have to consider the design merits of the proposal and carry out the tilted balance before coming to a conclusion. Given the site context in relation to the Lodge and the Old Rectory, I would suggest that the development appears cramped.

The above comments were received following the preapplication submission for 4No. bungalows on the site. This application has reduced the proposals to 3No.

24. Authority Employee/Member

It is an important principle of decision-making that the process is open and transparent.

Yes No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
