Please note in regard to:

- Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use.

Creation of a new path along Middle Avenue in the parkland at Dunham Massey. This is currently a popular visitor route but due to high footfall the ground is now compacted and eroded. It has started to create a scar along the grassland view. Therefore, a hard standing footpath is proposed to ensure the historic view, tree routes and SSSI status of the parkland is protected as well as providing visitors with easily accessible paths to follow all year round.

Farm Walk path is also to be diverted, to align with the historic/original avenue line. This is to improve how the historic landscape is 'read' and improve the views from the avenues. It will also improve erosion from visitors from creating desire lines from the origins of the "goose foot" to the already surfaced section of Farm Walk.

Has the work or change of use already started? Yes No

6. Existing Use

Please describe the current use of the site

Dunham Massey parkland is currently open to the public, who utilise the space for recreation, exercise and engaging with the outdoors and nature. The proposed footpath work will enhance this current use, by allowed for a more accessible and 'all weather' option for the Middle Avenue path. Middle Avenue path and Farm Walk path are currently open historic drives. The works proposed will enhance this current situation by opening up fully the historic site lines, while protecting the avenue tree's roots and other vegetation around the path from footfall erosion.

Is the site currently vacant? Yes No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated Yes No

Land where contamination is suspected for all or part of the site Yes No

A proposed use that would be particularly vulnerable to the presence of contamination Yes No

7. Materials

Does the proposed development require any materials to be used externally?

Yes No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material):

Vehicle access and hard standing

Description of existing materials and finishes (optional):

Description of proposed materials and finishes:

- Geo-textile membrane to be used in wet areas.
- 3-D cellular containment system (Cellweb) areas that have tree roots.
- Sub base material (not Limestone) 125mm. Acceptable material MOT style grit stone must be neutral or acidic
- Wearing course extending over path tray. Type 1 (20mm diameter to dust) 70mm compacted with vibrating roller or Wacker-plate. Golden/ buff in colour and acidic/ neutral – to match other paths in the park this will golden/ buff aggregate.

Are you supplying additional information on submitted plans, drawings or a design and access statement?
