Subject: Retrospective planning permission for garden shed 14A Valley Lane Holt NR25 6SF

I live at 14 Valley Lane (semi-detached to 14A) and we share a common garden fence. There are also adjacent neighbours at 14B.

I recently received an email from Sophia Sladden at 14A, letting us know that the planning permission had been applied for in June and she had just been made aware (by the Council) that she needed to inform us. As far as I remember the shed (which she refers to as a cupboard) was built in May.

I would like to raise an objection to the construction of a permanent brick and flint structure that is more accurately described as an outhouse and which is frankly, a bit of an eyesore.

As far as I know it is only used for the storage of a lawnmower and gardening equipment but bears no resemblance to a typical wooden garden shed.

Thank you for your help

Regards

14 Valley Lane
