Fife Development,

On behalf of Duffus Tennis Club.

The has been granted Planning Consent for upgrading the existing Tennis Court Lighting to LED and adding additional LED Lighting to Court 3.

See attached an updated drawings of the Proposed LED Upgrade Lighting Design & Data Sheet of the proposed Philips LED at Duffus Tennis Club, Duffus Fife. The original Design showed the columns which are existing on courts 1 & 2 plus 3 new additional columns & LED's at court 3 at 8M instead of 6.2M . The updated design attached has all the column and LED's at the correct heights at 6.2 M. (The error in the design presented was the column heights of 8M)

The Spill Lighting has improved slightly due to the lower height of the LED and is shown on the spill light presentation on pages 13- 15 of the attached PDF design.

The error was made during the original Tender presentation and has been rectified for your view as soon as it had been discovered.

I hope that the council planners can quickly look at the updated design and approve it to allow the club to progress the works at the earliest time.

I have been informed from Jamie Penman, Fife Council Planner, that the fee is £120.00, can you provide me with the details I need to make the payment and reference it to the Duffus Tennis Club Lighting Project.

I would be grateful if the council can provide a speedy response to my error, to allow the club to get the works started and completed in reasonable time.

Regards

For and On Behalf of DC Lighting Services Ltd

Doug Cree  
Director
