To whom it may concern,

Attached are the drawings for 2 of my 4 planning applications.

siting of shipping container DC/21/03944

siting of utility shed DC/21/03946

Planning statement as required for siting of the shipping container.

The application for the siting of the shipping container to be used as a storage unit to house camping equipment in. I am in the process of trying to earn money on my land to put back into my herb farming business and thus bring income to the locality. I have applied to Freedom Camping Club for an exemption certificate to have a small glamping site for the summer season on my land and would like to use the shipping container to house the equipment once the season is complete so everything can be put away neatly and out of site. The shipping container is partly painted green so it blends into the area and is not intrusive in anyway. i realise that the seasonal camping will be completely moveable with temporary structures and therefore will be needed to be stored when not in use. The shipping container is out of site from the road and neighbours and would therefore not be an eyesore nor will it take away any of the beautiful surroundings of the countryside. Having a diagnosis of Chronic Fatigue Syndrome, the container would greatly help me as the equipment will be near by for setting up and putting away thus aiding me as a sole worker. Thankyou

Elizabeth Denton
