

Feasibility of mains foul sewer connection

	YES	NO
Have you provided a written explanation of why it is not feasible to connect to the public foul sewer with this form? <i>This must include a scaled map showing the nearest public foul sewer connection point - check with your local sewerage undertaker.</i>	✓	
Is the distance from your site to the closest connection point to the public foul sewer less than the number of properties to be built on the site multiplied by 30m? (see Guidance Note 2)		✓
Does your proposal form part of a phased development or planned development of a wider area? <i>If YES, please provide further details including references of any planning permissions already granted.</i>		✓

Non-mains connection

Please provide a plan with dimensions that clearly shows the location of the whole system in relation to the proposed development and the position of the key elements e.g. septic tank, drainage fields and points of discharge.

1. Existing system

	YES	NO
Do you intend to use an existing non-mains foul drainage system?		✓
If YES, does the system already have an Environmental Permit issued by the Environment Agency? (In the case of a cesspool write N/A)		
If YES, please provide Environmental Permit reference number.....		

2. Discharge

	YES	NO
Do you propose to use a package treatment plant?		✓
Do you propose to use a septic tank?	✓	
Do you propose to use a cesspool? <i>If YES go to Q4</i>		✓
Have you considered having your system adopted by the sewerage undertaker? (see Guidance Note 7).		✓
Will all, or any part of, the discharge go to a drainage field or soakaway? (see Guidance Note 3) - this includes systems that combine a drainage field with a high level overflow to watercourse <i>If YES go to Q3.</i>	✓	
Do you intend to use a system that discharges solely to watercourse? (see Guidance Note 3) <i>If YES go to Q9.</i>		✓

3. Water abstraction

	YES	NO
Do you receive your water from the public mains supply?	✓	
If not, where do you get your water supply from?		

4. Cesspools (For methods other than cesspools write N/A)

	YES	NO
Have you provided written justification for the use of a cesspool in preference to more sustainable methods of foul drainage disposal? (see Guidance Note 4)	N	A

5. Drainage field design (For cesspools write N/A)

	YES	NO
Will the system discharge to a drainage field designed and constructed in accordance with British Standard BS6297:2007?	✓	
If not, why not?		
Will the discharge from the system be located in a Source Protection Zone 1 (SPZ1) ?		✓
