b) works to the exterior of the building? Yes No

c) works to any structure or object fixed to the property (or buildings within its curtilage) internally or externally? Yes No

8. Listed Building Alterations

d) stripping out of any internal wall, ceiling or floor finishes (e.g. plaster, floorboards)? Yes No

If the answer to any of these questions is Yes, please provide plans, drawings and photographs sufficient to identify the location, extent and character of the items to be removed. Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).

Existing single glazed wooden casement windows to be replaced with double glazed wooden casement windows to match. Existing windows to be carefully removed, openings prepared and new windows put in. New windows to be made with highest quality hardwood, painted in Farrow and Ball "Pigeon" and glass to be krypton gas filled double glazed units featuring soft-coat energy saving glass.
Existing windows in poor condition and single glazed which means in winter we suffer from condensation build up every morning which requires "hoovering" and in cold weather ice forms on the inside of the windows.
We want to extend the life of the house and make it fit for the 21st century. Conservation double glazed units would increase the insulation and have typical u-value of 1.40 making the house much more energy efficient, helping to tackle the climate emergency.
