Dear George ,

Please find planning application for a shed to park my tractor and seed drill undercover ,we have moved from a farm near Coleshill as we were affected by HS2 railway ,I am now running a small agricultural contracting business for the local farmers in the area ,we have filled the application form as best we can ,please come back to me if more details are needed ,some tree branches may have to cut back but I am very aware to do this to the minimum

My tractor is very unhappy being parked outside as it is used to an insulated building for cover .

Please find appropriate application fee

Regards

W Roger Lea
