

LDA Additional Information

I applied online to SCC to see the best way to progress this matter. The Surrey Highways Reference is 1996614.

The site was inspected by Mark Franklin (Local Highways Officer - SCC) on 02 September 2021, who advised that a crossover application needed to be progressed, but as the application was simply to replace the existing crossovers, he has no concerns or issues about the proposed works

Signed

Patrick O'Driscoll
