Dear Mrs Power

### Vehicle Crossover Application – 2 Groombridge Close Welling

I acknowledge receipt of your recent application for a vehicle crossover to be constructed to your property. Your application has now been processed and I can confirm that **the works will normally be carried out within ten to twelve weeks**, providing any walls/hedges have been removed, statutory board drawings obtained and permit to work on the highway being granted.

I regret that it is not possible to let you have a more precise date when the crossover will be constructed as this can be dependent on various factors, e.g. demand, weather conditions, availability of materials etc. Under normal circumstances, excavation and construction works are carried out over a 2-5 day period. Once work is completed, it will not be possible to gain access across the new crossover for at least seven days until construction has reached full strength.

If a lamp column needs to be removed, as mentioned in the estimate, a further delay of around eight weeks can occur. The reason for this is because the transfer of the electrical service from the old column to the new can not be undertaken by the Council and has to be arranged through the appropriate supply company.

If you have any enquiries concerning this matter, please contact the Contact Centre on the above number, quoting reference 00628663

Yours sincerely

Street Scene Services  
Enc.

Please find attached a copy of your receipt for your card payment
