

Application to carry out works to trees in a Conservation Area

Site address

Beech Farm
Bardwell
Bury St. Edmunds
Suffolk
IP31 1AW

Site map

Specification of work

Tree no.	Species	Specifcation
T1.	Sycamore	Crown lift to 5m.
T2.	Sycamore	Crown lift to 5m.
T3.	Conifer	Fell to ground.
T4.	Lime	Pollard to suitable points at approximately 5m.

Justification for works

The work to T1. and T2. is proposed in order to prevent potential damage to the buildings beneath the trees.

The felling of T3. is proposed in order to increase sunlight into the pond and help establish future plants.

Pollarding T4. is proposed due to the limited pruning points available to achieve a satisfactory crown reduction. The close proximity to the house also means that pollarding will offer a better longer term management option without the need for interim pruning.

All the trees are situated in the rear garden and offer no view from the public road and no amenity value to the village.
