To whom it may concern

We have lived at 79 Sidcup Hill for 27 years and can confirm that the previous owners of 77 Sidcup Hill originally had a front boundary wall approximately 1.8m high and a gate of matching height.

Approximately 10 years ago they replaced this wall with one which matched ours, which is still in place. We also recall that there was fencing on top of the new wall, taking the overall height to approximately the same as is now in place - presumably to provide greater privacy from the main road.

As neighbours at 79 Sidcup Hill, we have no objection to any aspect of the replacement fence and gate which Mr. and Mrs. Armstrong have now installed.
