Please provide a brief of	description of the building	or part of the building you are p	proposing to demolish		
A single story garage a	nd part demolition of a ch	nimney.			
Why is it necessary to o	demolish or extend (as ap	oplicable) all or part of the buildi	ng(s) and or structure(s)?		
The garage is an impractical size and doesn't allow for adequate parking space in front of the garage doors. The chimney is an odd looking addition to the newer brick part of the dwelling. The existing conservatory is poorly insulated with large amounts of glazing which means it is prone to over heating in the summer and expensive to heat in the winter. The existing pitched roof extension at the rear has a slate covered roof, slates should be fitted with a minimum 28 degree pitch. The pitched roof only has a 6 degree pitch and as a result leaks. The rear extension will replace the existing extension and conservatory. The proposal of a detached pitched roof double garage with an office above will provide adequate off-street parking, a much-needed home office and improve the overall appearance of the dwelling.
