

ISSUE	A	Original Survey Issue	9/8/2016
		Details/Reason for issue	Date

NOTES

- GENERAL NOTES:
- All underground services are surveyed at accessible points only. Routes between these points are assumed and representative.
  - The accuracy and content of this drawing is dependent on the original specification and KSL should be consulted before use of this data for purposes other than its original intention.
  - While every effort has been made to correctly identify individual tree species that may appear on this survey, they should be considered indicative only. If accurate identification is of great significance it is recommended that an arborist be consulted.
- Multi-boled trees are denoted by . Species  
Trees annotated thus:- <sup>Ash</sup> HT 15.0 represents Estimated height(m)  
47.239 Level at base
