Elevation Location Plan

REV	Original Survey Issue	16/8/2016
A	Details/Reason for Issue	Date
NOTES		
GENERAL NOTES:		
1. All underground services are surveyed at accessible points only. Routes between these points are assumed and representative.		
2. The accuracy and content of this drawing is dependent on the original specification and ASL should be consulted before use of the data for purposes other than its original intention.		
3. While every effort has been made to correctly identify individual tree species that may appear on this survey, they should be considered indicative only. If accurate identification is of great significance it is recommended that an arborist be consulted.		
Multi-topped trees are denoted by . Spaces		
Trees annotated thus—H 13.0 represents Estimated Height(m)		
47.239 Level of base		
<b>TITLE:</b>		
<b>Beech Farm, Icknield Way</b>		
<b>Tring, Herts.</b>		
Elevations		
HORIZONTAL CONTROL: Related to Ordnance National Grid		
VERTICAL CONTROL:		
Related To Ordnance Survey Datum via GPS Observations
