DATE	ACTIVITY	DESCRIPTION	VAT	AMOUNT
	Tree work	Tree work to be carried out as discussed on recent site visit. This is an updated quote from the last one due to needing a more detailed and itemised quote. I will list the individual trees below separately.	20.0% S	0.00
	Tree work	Job 1 listed as Beech (I) Located in the fire area . Tree is dead , very bad decay at the base also has fungus. Very dangerous - needs to be cut down to ground level.	20.0% S	1,100.00
	Tree work	Job 2 Listed as Oak (K) located in private garden 1. Very significant lean on the tree. Needs heavily reducing or in my opinion needs to be felled. This tree will need to be roped as overhanging neighbouring property for safety aspects.	20.0% S	600.00
	Tree work	Job 3 listed as Ash (G) located in private garden 7 Looks like suspected ash die back - advice is to fell the tree to ground level whilst the tree is not fully diseased so can be carried out n a safe manner.	20.0% S	400.00
	Tree work	Job 4 listed as Oak (E) located near laurel bush in gardens of 6 and 7. Major prune needed and dead wooding to clear from cables.	20.0% S	1,200.00

DATE	ACTIVITY	DESCRIPTION	VAT	AMOUNT
		<p>This job states no application needed but as its in a Tpo area i would suggest it would need permission as is not just dead-wooding needed.</p> <p>Price on this one is for all work to be carried out but if just dead-wooding i would reduce the cost to £650.00 + VAT</p>		
	Tree work	<p>Job 5 Listed as Oak (A) near the washing line.</p> <p>Remove deadwood.</p> <p>Major job - urgently needed to be carried out as large pieces could potentially fall.</p>	20.0% S	650.00
	Tree work	<p>Jpb 6 Listed as Ash (G) Located behind garages at front overhanging pub car park.</p> <p>Ash die back - needs to be felled - would not replant but would suggest to carry on with conifer hedging for privacy.</p>	20.0% S	700.00
	Tree work	<p>Job 7 Listed as Sycamore (B) next to car park spaces 8 and 9.</p> <p>Major dead- wooding needed.</p> <p>I would carry out an all round inspection on all of the trees listed here whilst carrying out the work listed.</p> <p>All chippings and timber to stay onsite - costs may increase if you would like me to clear all tree waste.</p> <p>I would not advise to re-plant any trees in these areas as the area is already heavily tree populated.</p> <p>If you would like to discuss any of this further or have any questions please do get in touch.</p> <p>Thank you.</p>	20.0% S	600.00

Fully Insured.
