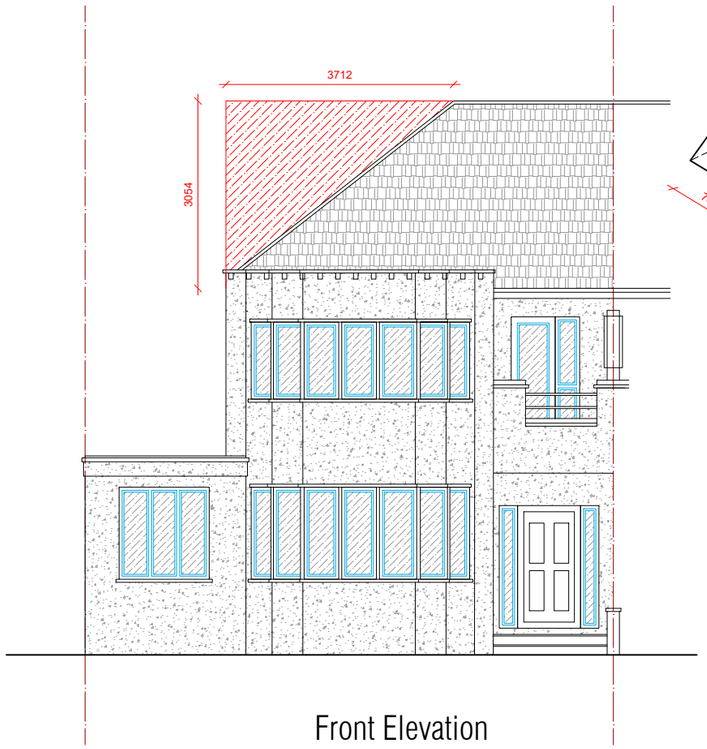
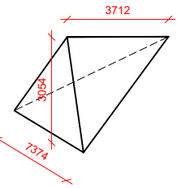
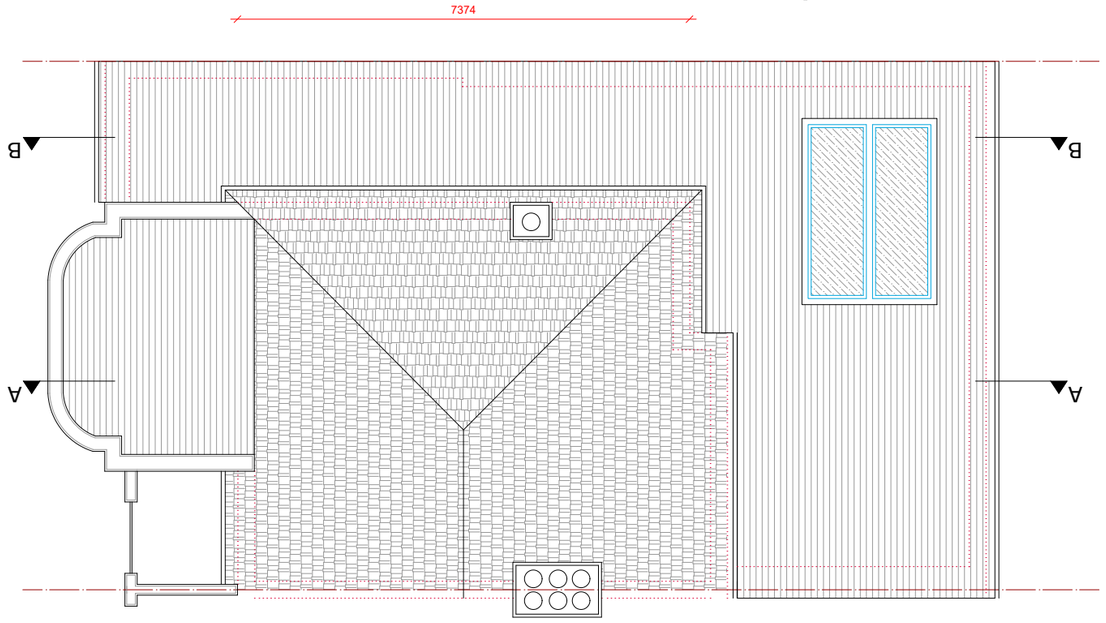
# Proposed Calculation



Front Elevation



Volume A
V1 = 1/3(base area x perp. ht)
= $\frac{1}{3}$ ( $\frac{1}{2}$ (3.05 x 3.71) x 7.37)
= 13.89 Cubic Meter



Roof Plan

Rear Elevation

Volume B
V2 = $\frac{1}{2}$ (2.82 x 3.59 x 1.92)
= 9.71 Cubic Meter

Volume C
V2 = $\frac{1}{2}$ (3.15 x 4.00 x 4.19)
= 26.39 Cubic Meter
