

check with your local sewerage undertaker.

Non-mains connection

Please provide a plan with dimensions that clearly shows the location of the whole system in relation to the proposed development and the position of the key elements e.g. septic tank, drainage fields and points of discharge.

1. Existing system	YES	NO
Do you intend to use an existing non-mains foul drainage system?	✓	
If YES, does the system already have a Consent to Discharge issued by the Environment Agency? DON'T KNOW (In the case of a cesspool write N/A) Please provide Consent reference number.....		

2. Discharge	YES	NO
Do you propose to use a cesspool? If yes go to Q4		✓
Do you intend to use a system that discharges solely to watercourse? (see Guidance Note 2) If yes go to Q8.		✓
Alternatively, will all, or any part of, the discharge go to soakaway? (see Guidance Note 2) - this would include systems that combine a soakaway with a high level overflow to watercourse? If yes go to Q3.	✓	
Have you considered having your system adopted by the sewerage undertaker? (See Guidance Note 6).		✓

3. Water abstraction	YES	NO
Do you receive your water from the public mains supply? If yes go to Q5		✓
If not, where do you get your water supply from? BORE HOLE OR RAINWATER HARVESTING TANK CAPACITY 120,000 LITRES		

4. Cesspools (For methods other than cesspools write N/A)	YES	NO
Have you provided written justification for the use of a cesspool in preference to more sustainable methods of foul drainage disposal? (see Guidance Note 3) N/A		

5. Ground Conditions (For cesspools write N/A)	YES	NO
Have you submitted a copy of the percolation test results with this form (see Guidance Note 4)?		✓
If NO please explain the justification for not undertaking or submitting these tests.		
Is any part of the system in land which is marshy, water logged or subject to flooding?		✓
Will the soakaway be located on artificially raised, made-up ground or ground likely to be contaminated? If yes please provide details as additional information.		✓
Have you submitted the results of a trial hole at the site to establish that the proposed drainage field will be above any standing groundwater (see Guidance Note 5)?		✓

6. Available Land	YES	NO
Is the application site plus any available area for a soakaway less than 0.025 hectares (250m ²)?		✓
