5. Description of the Proposal

Please note in regard to:

• Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.

statement template and guidance. • Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

• Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use.

The proposal site is a commercial building within Dartford Town Centre and consists of three storeys of offices, with the ground floor tenanted and the first and second floors vacant. The second floor has been vacant since 30th April 2019. The first floor has a lease expiring and has been unused since March 2020. The

5. Description of the Proposal

proposal seeks to convert the vacant floorspace to residential use. The application follows the previously approved Prior Approval applications for the conversion of the upper floors (first and second) office space into 7

This application is not the conversion of the ground floor commercial space into a residential units with associated existing car parking at the rear. The key change is on the second floor to create units 8 and 9. Similarly to the first floor, the front of the property has been divided equally. At roof level, a series of skylights have been added to the existing roof to maximise the amount of light to each of the units which now exceed the levels achieved in the approved prior approval schemes. Generally, this application allows the opportunity to improve on the prior approval to enhance the living arrangements for future occupants, including the increased levels of daylight into the flats and the new areas of private amenity space. These dwellings would appeal to those wishing to enter the housing market, with the flats meeting the relevant floorspace standards. The flats will offer a good standard of floorspace, layout and general amenity. The site already has a residential refuse store and the proposal will provide space for bins for use by the future occupiers.
