----------------------

Details of the pre-application advice received

The pre-application plan consisted of 10 units spread throughout the site. A reduced scheme was advised with the pods being located closer to existing buildings. There were also concerns over the site being harmful to the landscape and the AONB and visible from distant views.

The new proposed development has a reduced number of pods with them positioned much closer to the existing surrounding buildings, these can be seen on the layout plan. The proposed parking will utilise an existing gravel area on site, therefore there will be no harmful impact from a new parking area. The additional screening proposed will also help to reduce the impact on distant views significantly.
