4. What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order? Yes No

Are you wishing to carry out works to tree(s) in a conservation area? Yes No

Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for question 'Identification of Tree(s) and Description of Works')? Yes No

4. What Are You Applying For?

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application

5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan); and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

G1 Is an area which hosts multiple young, semi mature, and Mature broadleaf trees, mature being the minority. The area is made of primarily Cherry, Acer, and Fruit trees within an area of approximately 65 ft x 45 ft (please see Fig 1 - sight plan). There are also areas of natural regeneration within the area (mainly Sycamore) which could also be suckers from some of the existing trees.

The proposed work is to clear fell G1 and grind out the stumps in order to erect a building for recreation.

Some of the trees (mainly semi mature, and mature) contain a substantial amount of dieback, epicormic growth, and stripped bark within the canopies. This may be a consequence of the area being subject to extremely wet and boggy conditions - (not ideally suited for some of the trees), along with disease and squirrel damage also being a possible factor.

Along the North border of the area (G1) is a line of Mature broadleaf trees including Ash and Acer which make up part of a small (predominantly broadleaf) woodland. Along the South border there are a Line of Mature broadleaf trees (as with the North border) which are nice examples of the species.

To the West of G1 there is an area of newly planted Willow trees which are ideally suited to the damp ground conditions to replace/create more habitat following the potential works.

Any works undertaken will be carried out according to BS3998 Tree works recommendations.

6. Tree Ownership

Is the applicant the owner of the tree(s)?

Yes No

7. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

Yes No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

8. Trees - Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.
