## Please return a copy of this Sheet with your Planning Application (retain this one for your records)

TABLE 1. Local Requirements for Protected Species: Criteria & indicative thresholds for when a Species likely to be affected and for which a Survey will be required Survey & Assessment is required (see 'Guidance For Applicants') SPECIES Crested Newts Breeding Birds Boss the application involve any of the following: Water voles Amphibians Owls activities that may trigger a Protected Species Survey? Badgers Please lick Reptiles Crayfish appropriate Plants Otters Great Вал Bals Proposed development which includes the modification, conversion, demolition or removal of buildings and structures (especially roof voids) involving the following: YES NO all agricultural and ex-agricultural bulldings (e.g., farmhouses and barns) particularly of traditional brick or stone V V ٧ construction and/or with exposed wooden beams greater than 20cm thick with stone, state or partitle roof; all tunnels, mines, kilns, ice-houses, adits, military fortifications, air raid shelters, cellars and similar underground ٧ ducts and structures: ٧ all bridge structures, aqueducts and viaducts (especially over water and wet ground); Domestic works which involve the removal or disturbance to the roof or roof structure including loft conversions. ٧ Proposals involving lighting of listed buildings or flood lighting of green space within 50m of woodland, water, field V ٧ V hedgerows or lines of trees with obvious connectivity to woodland or water. Development within the curtilage of a church. ٧ V ٧ Proposals affecting woodland, or field hedgerows and/or lines of trees with obvious connectivity to woodland ٧ v V ν or water bodies. Proposed tree work (felling or lopping) and/or development affecting: old and veteran trees that are older than V 100 years; trees with obvious holes, cracks, cavities; trees with girth greater than 1m at chest height. ٧ V ٧ Proposals affecting gravel pits or quarries and natural cliff faces and rock outcrops. ٧ Major\* proposals within 500m of a pond or lake or Minor proposals within 100m of a pond or lake. ٧ V V ٧ Proposals affecting or within 20m of rivers, streams, canals or other aquatic habitats. Proposats affecting 'deretict' land (brownfield sites), allotments and railway land. ٧ ٧ V V V Proposed development affecting any buildings, structures, feature or locations where protected species are v v known to be present. "

V = if you ticked the 'YES' box against this species then an Ecological Survey & Assessment must be submitted with your Application unless it falls within the exceptions described in this 'Guidance for Applicants'.

<sup>\* =</sup> A 'major' proposal is one that is more than 10 dwellings or more than 0.5 hectares or for non-residential development is more than 1000m² floor area or more than 1 hectare.

<sup>\*\* =</sup> Confirmed as present by either a data search (for instance, via the North & East Yorkshire Environmental Data Centre) or as notified to the developer by the local planning authority, and/or by Natural England, the Environment Agency or other nature conservation organisation.

TABLE 2. Local Requirements for Designated Sites & Priority Habitats: Criteria (Trigger List) for when a Survey & Assessment are required

## SITES & HABITATS

Please tick appropriate box				
ES	NO	Presence of:		
2		1. DESIGNATED S	BITES	
		Internationally de	signated sites Special Area of Conservation (SAC) or Special Protection Areas (SPA)	
		Nationally designated sites Site of Special Scientific Interest (SSSI)		
		Locally designate	sites Site of Importance for Nature Conservation (SINC) www.harrogate.gov.uk/pdf/localplan/00homepage.pdf	
	.]	2. PRIORITY HABITATS (Habitats of Principal Importance for Biodiversity under S.41 of the NERC Act 2006, as amended by the Biodiversity Action Plan Review 2007) and OTHER BIODIVERSITY FEATURES (as identified by the Local Biodiversity Partnership - see paragraph 84 ODPM Circular 06/2005).		
		Upland agricultural	Moorland (Upland Heath and Blanket Bog)  Moorland Edge  Upland calcareous grassland (species-rich limestone grasslands)  Upland hay meadows	
	-	Lowland agricultural	Field Hedgerows Arable field margins Lowland meadows (e.g. species-rich flower meadows or pasture) Lowland heathland and/or dry acid grassland	
			Lowland calcareous grassland (species-rich limestone grasslands) Floodplain grazing marsh (wet grassland)	
	5	Wetland/Water	Fen, marsh, swamp and reedbeds  Upland Flushes, Fens and Swamps  Standing open water and canals (e.g. lakes, reservoirs, ponds,)  Rivers and streams	
		Woodland & Trees	Wet woodland Lowland mixed deciduous woodland (ancient woodland) Secondary Woodland and Mature/Veteran Trees Upland woodlands (e.g. mixed ashwoods, oakwoods, and birchwoods) Wood-pasture and parkland Traditional Orchards Trees and scrub used for nesting by breeding birds	
	V	Urban/Geological	Urban green space (e.g. parks, allotments, flower-rich road verges and railway embankments)  Open Mosaic Habitats on Previously Developed Land  Caves and disused tunnels and mines (e.g. roosts for bats)  Rock Outcrops or Cliffs  Lead Mining Spoil Heaps
