Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

- Design
- Dominating/Overbearing
- Loss of Privacy
- Overlooking

Comment: Privacy is a must for my wife and i and therefore must object to the application due to being over looked by the window/door facing west to be a window. I would have no problem if this was bricked up. I also object to the two velux windows that face south as these look over us, but would have no objection if these were at a height when standing on floor you couldn't see out as mine do facing my neighbour
