## Comment Details

Commenter Type: Neighbour

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: my back garden runs down the side of the access road and when we have had other building works in the road delivery drivers have parked by the hedge and we have had fumes come in to the garden which is not nice for the children playing. the hot fumes have also killed parts of the hedge in the past, we have had the driveway blocked before as well. we would like see a no work before 8 or past 4 and now work weekends as this is a quiet area. there back garden does back on to a large public car park would be good for deliveries ect
