Comment

Westfield Mill Lane Fishbourne PO19 3JN

Ref. No: 21/03215/DOM |

My wife and I wish to make comments about the application to extend the house called Westfield that is directly south of our property.

As it will overshadow and affect the light into our kitchen and lounge, we would rather that the 1st floor extension and the large 2nd floor dormer windows were not built, and think that the size and design is visually out of keeping with the rest of the buildings in the area.

Our main problem is with the 1st floor window in the proposed bedroom 4. This window on the north side directly faces our property, and will be virtually opposite our main bedroom window that faces south. If allowed this would also give a clear view down into our lounge, kitchen, private courtyard and garden. We find this to be unacceptably intrusive and will remove all privacy.

We have discussed this with Harvey and Charlotte Hillary and they are aware of our views and have said that they can accommodate the removal of this window.
