Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I live approx 35 metres on the east side of Westfield, and feel that the proposed extension and the new dormer windows to this house will be over development of this property. The house is situated slightly above Mill Lane and the enlarged profile will affect the light on surrounding properties.

The dormer windows will over look the main bedroom and sitting room of my house and surrounding gardens in the neighbourhood.

I would be grateful if the plan could be reduced in keeping with the rest of the houses in the immediate area.
