To whom it may concern,

I do a fortnightly shop at the Aldi in Skelmersdale, the car park on the concourse is always full so have to go round a few times to find a parking space.

The Aldi store on the concourse is quite a way in and after I have shopped I find that there is a long way back to the car park with heavy bags, to be able to park close to the store would be very nice.

Yours,

Caroline Wilson
