Subject: Support for Application 2019/0366/FUL - New Aldi in Skelmersdale

To whom it may concern,

A new Aldi store in Skelmersdale would be excellent! The current store is in an awkward location & is incredibly inconvenient, so much so that I do not go. Instead, I travel to the store in Burscough because the store is easily accessible, the parking is right outside (not upstairs and outside or down a flight of steps like the concourse location). A new store in Skelmersdale would reduce the time and distance spent for others like myself travelling to nearby towns for their Aldi stores, and in turn could reduce some extra traffic & air pollution in those areas. It would also save a little money on fuel for those like myself, a 'commuter shopper', if you will.

Skelmersdale has always felt like a long forgotten town, despite its diverse population. Further development by companies such as Aldi is a great opportunity for WLBC & the residents of Skelmersdale, with job opportunities and easier access to a more budget friendly supermarket that would be located much closer to home than others such as Burscough or Wigan.

Yours,

Judith Sergeant
