Window replacement at Red Tiles...

Subject: Window replacement at Red Tiles...

Design and access Statement
Barham CO78TA

We wish to replace 3 of our upstairs small bedroom existing windows to the above premises.

Unfortunately they are rotting away and need replacing badly.

We would be replacing them with identical timber framed ones but if possible would like to replace the single glaze with double if possible, the work will be consistent with the grade 2 listed keeping.

The 3 small windows are the ones across the top at the front of the house shown in the photos we have already sent over to yourself.

The bespoke windows will be built by expert joiners from Anglian home improvements who are aware these are for a grade 2 listed property and will be made like for like with the exception of having double glaze if permitted.

Mark Barham.
