

I would like to lodge a complaint against this proposed plan. This footpath is walked regularly by my family , friends and so many people. I was born in Little Oakley and have walked this route to the beach all of my life [REDACTED]

Every Sunday whatever the weather myself and my husband walk there and the thought of not being able to do that and see all the familiar sights , the seals, birds, and the changing tides fills me with absolute despair!!

I cannot understand why One area of outstanding beauty and endless amounts of wildlife will be destroyed to in effect save another !! What will happen to the wildlife whose habitat is going to be flooded?

Our walk down there today,we spotted 2 very rare birds, what happens to them when their nesting area is gone ?

Please this CANNOT happen

Regards

Julie Chopping.
