Subject: 21/02144/FUL Objection

Hi

I have been unable to register to add our objection to this planning application and I would be grateful if you could register our following objection.

21/02144/FUL My wife and I would like to register our objections to this planning application as it stands.

On the grounds that the residents of Little Oakley (and visitors) will lose the right of access to a local natural amenity in pursuit of commerce, sport, leisure and recreation that has been a right and a privilege enjoyed by numerous generations over hundreds of years, due to a proposed development in another community.

We object most strongly to a development for the benefit of one community being a curtailment to freedom and disbenefit to another.

Stephe & Chloe Jarvis

Residents of Lt Oakley.

We would be grateful if you could acknowledge receipt of this objection.
Many thanks,
S. P. Jarvis
