Subject: Planning proposal for 4 dwellings at 19 The Street Kirby le soken

Good afternoon Your ref 21/02171/OUT

I emailed and called your office earlier regarding my concerns for the above.

We only received your letter asking for our comments yesterday 13th January.

We moved here to 10 briarfields only a year ago with 3 young children predominantly for the benefit of our eldest who is [REDACTED] so that she can have a fresh air environment as [REDACTED]

We have since endured the disruption of noise and not so fresh air whilst the building of what is there now progressed.

We thought that it was done and now I hear we are going to be subjected to the same again.

I object to this further development for the above concerns and also the density of 4 dwellings in such a small area. And would certainly impact us through building and beyond as so close to our garden.

We also have concerns about more garden flooding coming our way from this site as we already have a problem with this.

Finally I would like to object as our amenity and privacy would be lost due to being overlooked.

Please take all the above into consideration when viewing this proposal.

Thank you

P.Rose
