**Subject:** Re: Oak Tree

Dear Andrea,

I have attached a scan for the completed. Treeworks application and attached a few photographs. I also have some video clips which probably describe/give perspective to the situation more clearly.

James from Access2Trees has visited and assessed the tree. I believe you have discussed this with him already.

Please let me know if you require anything more from me at this stage.

Also could you let me know if you have a preferred portal for video clips. I will have a play around too see how I can transfer these larger files to you.

Regards,

Richard Liver

Dear Mr Liver

Further to our chat about the tree. My recommendations are:

To have your tree surgeon look at the tree for a professional opinion as to whether it is best removed for safety

Submit the attached form to fell a protected tree to start the consultation process with neighbours

Send some photos if possible to me of fallen branches etc.

Kind Regards

Andrea
