Hi Becca

Yes we will need a heritage statement as it's an application for LBC, but the design statement he has submitted would suffice – he could just retitle it Heritage Statement

More importantly we will need an elevation to scale showing where the panels are to be located.

I did talk the applicant and offered to visit the site before he submitted but he declined.

Thank you

Steven

Hi Steve

Can you have a quick look at this application please (see attached).

Will they need permission? It looks like this part isn't listed? If they do need LB consent do they need to do a heritage statement?

Thanks
