Dear Sir/Madam

31.1.22

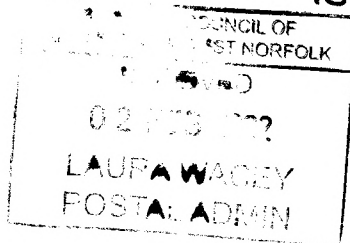

Application For Tree Work T1, T2, T3.

In reply to your letters dated 26.1.22
I would like to trim back 35% off T1
and T2 Silver Birch Trees to make them safe
and not damage my neighbours stables and
outbuildings if they were to blow down.

The Sycamore T3 is currently over
hanging on the left hand side of my garden
which is extremely close to my garage so
I would like to trim back this one 25%.

I hope this information will be helpful,
if not maybe we could arrange a visit
from one of your colleagues to view the trees
in question. I look forward to hearing from you

Yours Faithfully,

S. LUQSDEN.
