Subject: Panshill Holding reauthorisation (Our ref: 201905003)

Hi Oliver,

Thanks for speaking to me just now.

I pulled your email address out of our files so you have a written response but I'll give you a ring to confirm as well in case this isn't a good way of getting in touch.

So I've looked into your query and we should be able to transfer the licence from one planning application to another as long as the works remain within the lost area of the attached impact plan, have you registered another application? And if so, does this application have consent?

We'd need the new planning application reference and when a new consent is in place and we'll arrange for the planning authority to re-authorise you.

We're happy to carry out this transfer for free.

Kind regards,

Katie
