HERITAGE STATEMENT

We have been commissioned by Mr and Mrs Parry who own this grade 2 listed home to remove both front and rear timber windows and replace with new hardwood ones.
The windows are to be of hardwood construction.
The windows are to be fitted with Heritage double glazed units beaded from the inside.
The finish of the windows is to be white satin to the internal and Farrow and Ball Light Grey on the external.
There would be no visual difference on the windows only the change of colour.
Vertical sliding windows to be of traditional design and construction using weights and pulley.
Yorkshire sliders to be on European oak sliders not metal runners.

Yours Faithfully

Stephen J Allenby
