Email dated 21st December

Details of the pre-application advice received

An initial application was dispatched to the local authority, ultimately this was returned which has resulted in this new application.

In the above noted email the planning officer, Martin Perks noted that he was concerned about the raising of eaves level and the introduction of dormer windows. Following this comment we have decided to remove the dormer windows and instead to use the looks roof lights. The eaves height we believe shouldn't be a concern, we are purely matching the insight of the rear of the building and additionally our eaves height is fractionally lower than the recently approved and constructed three bay garage in the immediate adjacent property known as Church farm.

That particular building is a more visible exposed location where as our proposal is in a very sheltered hidden location, thus coming to the conclusion that the height of the eaves we believe should be acceptable.

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- No

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.
